The evolution of the Yamaha Custom Z continues.

Powerful sound and the ability to play fast passages without difficulty, the Z is crafted to meet your highest expectations.

They have been re-examined from the neck to the bell and are now equipped with a one-piece bell for increased resonance and the highly regarded V1 neck for the optimal combination of response and control.

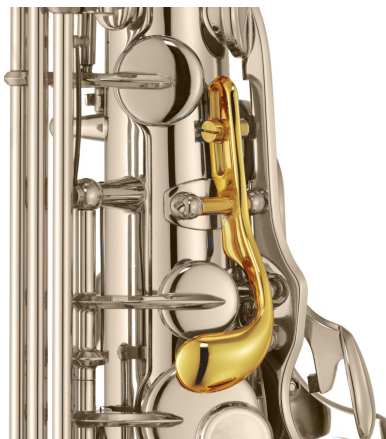

## Features

### Improved Low B-C# connection

An improved mechanism from low B-C# connection ensures the consistent closing of the low C# key and promotes a clear response from notes in the low range of the instrument.

### Adjustable Front F key

An adjustable Front F mechanism gives the player the freedom to find the optimal level of resistance in the altissimo range.

**V1 neck**

The wide bore taper of the V1 neck provides a free-blowing feel and the greatest possible flexibility.

**Lighter thumb hook and thumb rest bases**

Lighter thumb rest and thumb hook base designs produce better response and a more cohesive tone.

**Metal resonator pad**

The metal resonators offer an outstanding response and deliver a wider dynamic range. The entire range of the instrument has a clearer pronunciation, providing effortless playability all around.

**One-piece bell with new engraving**

In the tradition of those coveted vintage saxophones, the 82Z now comes equipped with a one-piece bell. This feature drastically improves low end response and offers the player a wider palette of tonal color. More elaborate with finer detail, the new engraving design offers delicate beauty.

**Case**

The 82Z comes equipped with lightweight case that has a shoulder strap.
