

# YBS-62II

## PROFESSIONAL SAXOPHONE

The 62 bari is a legend in its own right. Played by amateurs and professionals alike, it's one of the most respected baritone saxes out there.

With the improvements that we have made, the 62 promises to go from strength-to-strength and further enhance its reputation amongst sax players.

We've reduced the weight of the keys whilst at the same time re-designing keys to help relieve player's hand tension that comes with playing such a large instruments.

The optimised bell length further adds to the weight reduction whilst offering consistency throughout the registers.

Player comfort was a higher priority with the improvements we made and this is further demonstrated by the new strap ring positioning giving saxophonists a fantastic playing feel.

We're sure that the new YBS-62II will continue to be a firm favourite for sax players.

Lighter and more ergonomic  
key layout giving a great  
playing feeling.

New designs have been  
implemented on the front F,  
low A, octave key, palm keys,  
upper and lower table keys.

New strap-ring positioning  
for natural, playing comfort.

New 'campsis chinensis'  
engraving.

Shorter bell design giving  
a consistent sound in all  
registers.

New peg design (not  
included) offering  
consistent sound with or  
without the peg attached.
